Scuba 75

18.11.05

Royal Eijkelkamp's Scuba 75 water quality probe, with a diameter of 3 inches, packs the big 4 in water quality with optional ORP, depth, and wipered turbidity - all in one small and robust instrument!

- Holds up to 7 sensors: turbidity, temperature, pH, EC, DO, and more
- Top-grade sensors and user friendly software
- Long sensor lifetime
- Separate, easily refillable reference sensor
- 3 years warranty on probe and sensors
- Automatic recording of internal calibration data and sensor health indication

Description

The Scuba 75 is available in two configurations, the 75A and 75B. Both models come standard with temperature, pH, conductivity, dissolved oxygen, and wipered turbidity. Optional are ORP (oxidation reduction potential) and depth sensors. The Scuba 75B can also accommodate one ISE (ion specific electrode) sensor.

The Scuba 75 model features an optical DO sensor with long-lasting (5+ years) replaceable cap, and the probe includes a separate and easily refillable reference sensor. Because this sensor is separate, the lifetime of the pH sensor is significantly lengthened, and expensive consumables can be eliminated for a low cost of ownership over the life of the probe. To ensure accurate measurements and a long lifetime, the DO sensor can be equipped with a wiper.

The water quality probes are ideal for spot checking and tough enough for extended deployments in combination with the GDT Prime Plus or the GDT-Multiple.

The probe is offered as complete package, so you are provided with everything you need to start testing water. It's a full set with cables, software, and electronic manual.

Available variations

Every Scuba is customizable, but there are several standard versions:

- **18.11.05 Scuba 75A multiprobe package**
Measures electrical conductivity, pH, DO, turbidity, and temperature. Optional DO wiper and sensors for depth and ORP.
- **18.11.06 Scuba 75A with internal 8 C battery pack**
Measures electrical conductivity, pH, DO, turbidity, and temperature. Optional DO wiper and sensors for depth and ORP.

- **18.11.07 Scuba 75B multiprobe package**
Measures electrical conductivity, pH, DO, turbidity, and temperature. Optional DO wiper and sensors for depth, ORP, and 1 small ISE.
- **18.11.08 Scuba 75B with internal 8 C battery pack**
Measures electrical conductivity, pH, DO, turbidity, and temperature. Optional DO wiper and sensors for depth, ORP, and 1 small ISE.

Please note in your quote request what you need from your probe, so our specialists can help find the best solution for you.

Specifications

Scuba 75	
Diameter	2.95 in 75 mm
Length/ weight without battery pack	19 in / 3.6 lb 483 mm / 1633 g
Length/ weight with battery pack	27 in / 5 lb 686 mm / 2268 g
Number of sensors	Up to 7
Battery pack	8 C
Operating temperature	-58 to 122°F -50 to 50 °C
Depth rating	656 feet, max depth for ISE and TDG sensors is 50 feet
Communications	RS-232, SDI-12, or Modbus
Connection to mobile devices	USB or Bluetooth
Sample rate	1 Hz
Data memory	1,000,000 logged readings
